

## CORONAVIRUS PREVENTION

- Frequently wash your hands for 20 seconds.
- Clean and disinfect surfaces after illness with Chlorine or Peroxide cleaners.
- Wash contaminated clothing.
- Use a HEPA, disposable respirator with exhale valve while working with patients or cleaning hotel rooms.
- Cleaning up thoroughly after becoming sick.

- Encourage employees to stay at home while sick and for two days after symptoms subside.
- Do not prepare foods if you have been sick for at least two days after symptoms subside.
